DETAILED ACTION

Applicants cancellation of claims 1-21 and 27-49, amendment of claims 23-26, and addition of new claims 50-52, Paper No. 3, is acknowledged. Claims 22-26 and 50-52 are present for examination.

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 22-25, drawn to a *Aspergillus* mold fungus without β -fructofuranosidase activity, classified in class 435, subclass 254.3.
- II. Claims 26 and 50-52, drawn to a process for producing β -fructofuranosidase, classified in class 435, subclass 200.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the *Aspergillus* mold fungus of Group I can be used to produce materially different products than β -fructofuranosidase.

Because these inventions are distinct for the reasons given above, have acquired a separate status in the art as shown by their different classification, and the literature

searches required for each of the Groups are not required for the other Group, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).
